## Life Drawing, Portrait, Sculpture and Fine Art Events

### Introduction to *Modelled me UK* & Art as a highly successful tool for Team Building

Maximising a company's most valuable resource – their staff - is an ever-present challenge. *modelled me uk* has been supplying UK & multinational bodies with highly effective and diverting Figurative Art based training programmes since 2002. Clients ranging from Microsoft, EA Games, Matta NPD – all benefiting from the quality of delivery and our long experience in this challenging, misunderstood but very rewarding and effective field.

A wide range of programmes, crafted to individual requirements and focused on Team Building, individual/group enhancement or Corporate Partner entertainment are available across the UK (and beyond) from one of the UK's longest established, most respected / experienced provider of Art based events.

Our specialised but enjoyable, entertaining/empowering events designed for colleagues/partners are becoming increasingly recognised as a highly valued means of promoting team ethos, individual development & when delivered as a "Corporate Partner" event, as a superb method of reinforcing corporate relationship & "Family Feel", with the associated benefits resulting from positive morale and productivity enhancements.

With major on and off site training or meetings, where offered, "*Partner's Programmes*" are often predictable and ineffective, being seen as somewhat - passé! (Shopping Trips, Spa, Clay Pigeon shooting etc)

Fortunately, there is now an organisation who, "*drawing on*" the experience of literally thousands of individual commissions across the UK, has been delivering challenging, rewarding programmes designed specifically to cater for the corporate market and its varied but very specific, requirements.

*modelled me uk* can deliver a **totally** self-contained package incorporating:-

- (Suitable) Venue(s) across the UK if suitable Client venue is not available
- Tutor(s)
- Male and Female Model(s)
- All Hardware and Consumables required.
- Unequaled experience in servicing this market sector

Close liaison with our diverse client base, identifies the individual requirement and the resultant bespoke session (based on our highly effective well proven "boiler plates") are tailored to provide full day, half day, 2 or 1 hour durations to match the requirement and time slots available.

Our experienced Tutors based across the country, - all highly respected figurative Artists in their own right, will lead the group(s) through a structured series of simple exercises, tempered by the abilities of the delegates in the group.

The aim(s) will of course(s) vary as per the clients specific requirements, but our skill and experience ensure that they are all highly effective and for each and every individual attending, that they will be enjoyable, instructive, and entertaining. Even the most shy, reluctant or inexperienced producing art that will surprise and please them.

*modelled me uk's* highly experienced and Talented Models will present the poses (Nude, Draped or Clothed), in the highest standards of the modern Art Studio to ensure that the fusion of delegate, Tutor and Model delivers the catalyst to produce-  
*Fun & truly memorable Figurative Art Experience(s)*

## Life Drawing, Portrait, Sculpture and Fine Art Events

From the outset, we take the delegates outside their comfort zone to a place of equal knowledge. From here we impart a number of basic and highly effective skills, before taking the group on to collaborative events that produce impressive, tangible results. The degree of self-awareness and reliance on one's team members are extremely valuable benefits – that even in our shortest sessions, most attendees take away – along with at least 5 or 6 (vaguely) “human” looking sketches!

The ability to draw is inherent in us all to some degree. The unique combination of talents encapsulated in and delivered by *modelled me uk* will ensure that the most inexperienced delegate will be able to have achieved a number of very important goals – even within the bespoke session – tailored to the specific requirements, availability & commercial constraints of the group. Most sessions will be able to include:-

- Studio etiquette
- Form and Shape
- Negative space
- The artists tools
- History of the Life Model
- Contemporary Figurative Art
- How to use the Pencil
- How to use Charcoal
- How to use the eraser
- Lay Out
- Form & Composition
- Measurement
- Choosing Media
- Mark making Techniques

Whatever the skill set present in the group, the Tutor/Models will continually modify the session in order that the group dynamic remains positive and focused on the (pre agreed) goal(s). The delegates receive continual feedback, help/advice on their pieces and are lead naturally onto the next discipline, style, technique without the need for any prior knowledge.

However, Artists with previous experience can attend and at the same time gain from the feed back of the tutor and take advantage of the talented models to produce more detailed and representative material from the outset. The atmosphere is supportive, the mood relaxed, - the emphasis on participation and enjoyment, - the results, always positive and pleasing – often, surprising and insightful but always productive and enjoyable.

In addition to Venues, Tutors, Models & our unparalleled experience, *modelled me uk* provides all suitable art materials, including:- Easels (where appropriate), Paper, Bull Dog Clips, Pencils, Masking Tape, Erasers, Charcoal, Fixing Spray etc.

With such an unusual and complex product, pricing can be equally intricate, however to enable clients to gain an impression of likely costs, the following table will be useful (based on Client provided Venue).

Single session per delegate	2-12 Delegates	13-23 Delegates	24-47 Delegates
1 Hour	£ 500	£ 750	£ 950
2 Hour	£ 600	£ 950	£1,150
Half Day (3 Hours)	£ 750	£ 1,250	£1,400
Full Day (6 Hours)	£1,250	£ 1,950	£2,000

**N.B.** It may be necessary to add accommodation, subsistence, & travel charges for some locations.

The aim of these sessions is clear – via an enjoyable diversion through Art, to experience the importance of individual skills, education and team activity.

**Contact us now** to find out how taking your core team (far) outside their comfort zone can improve their *self-awareness*, *respect for team members* and the importance of *focusing on tools & skills* required to *achieve the actual goal*.
